

## Easy Story Map Assignment

Purpose: Use mapping to articulate a claim about a text or texts you are studying.

Difficulty: Medium

Time: 3 hours

Equipment:

- a. desktop, laptop, or mobile device
- b. easily accessible space on a web-server

Evaluation: Projects will be assessed on their accuracy, their constructive articulation of a relationship between the content of this class and geography or physical space, and their careful use of a variety of evidence.

Using the tool at <https://storymap.knightlab.com>, create a map that makes a compelling claim or tells a compelling story about a text or texts you are studying for this class. You should plot at least five investigative sites. Where possible you should add images and/or video sources.
